

# Challenger 150

## The Challenger Society Conference 2022

**The Challenger Society Conference 2022 will mark the 150th anniversary of the Challenger Expedition and celebrate the birth of international, interdisciplinary oceanography.**

Challenger 150 will be the opportunity to take stock of where we have come in our science, the way we do oceanography, and will also be the opportunity to discuss, imagine and design the future of open, international, collaborative, inclusive and diverse marine science.

The conference will include plenary sessions covering the very latest research in Oceanography and a wide variety of special science sessions covering the physical, biological and chemical oceanography, marine conservation and biodiversity and marine geology and geophysics.
